### Question 1

0 / 1 pts

What guarantees, what offers the fact that the CPU modes were extended and appeared e.g. "kernel" and "user" mode?

☐ It gives us possibility to create an own operating system!

☐

It offers such possibility with which we can fit better the system to any of the application types.

☐

This possibility means that the operating system may use it's power and has got all of the rights over processes.

☒

This possibility means that the operating system is not able to live with its power and can not be an emperor over the processes.
