Score for this quiz: **27** out of 30

Submitted May 21, 2020 at 4:26pm

This attempt took 26 minutes.

### Question 1

1 / 1 pts

Which statement is NOT true about the communication with peripherals?

☐

We may support a special device to access a huge amount of data (memory).

☐

We kick in the door, stop the running things and signs that it is time for "match"!

☒

The data of the devices are collected in file(s) therefore the operating system supports binary operations for this.

☐

We are inquiring continuously - e.g. has the meeting started already?

### Question 2
